

ResHall Information

Can I bring my own wireless printer to use in my room?

Saint Mary's University does not support the use of wireless printers in the ResHalls.

If you do bring a printer, it will not work with our wireless network and we will not support it. Please use a wired connection if you bring your own printer.

Don't forget we provide wireless access to printers in every building! Learn more about [connecting to ResHall Printers here](#).
