## **ResHall Information**

## Can I bring my own wireless printer to use in my room?

Saint Mary's University does not support the use of wireless printers in the ResHalls.

If you do bring a printer, it will <u>not</u> work with our wireless network and we will not support it. Please use a wired connection if you bring your own printer.

Don't forget we provide wireless access to printers in every building! Learn more about <u>connecting to ResHall Printers here</u>.
