

# Tegrity for Instructors

## How to Move a Recording

Tegrity allows you to move your recordings from course to course. This option deletes the recording from the original position, and pastes it into the newly chosen location, making it simple for professors to move their recordings from place to place if need be. Here's how directly from the Tegrity help page:

<http://help.tegrity.com/kb/how-to-move-a-recording>

Your recording has now been relocated to the location you have chosen.
