

Employees

Previous Version - Faculty Online Portal - Overview

This is the 2016 - July 2019 version of the Faculty(employee) Portal. A new overview video is in the works to be posted. Much of the content in this video is valid. The various screens are accessed from a different place on the faculty.smumn.edu. The "home" screen menu is across the top versus being on the left side. The most noticeable change is accessing your profile which is now in the upper right corner instead of the upper left.

The Faculty Online Portal is used by university faculty to view course lists, schedules, student information and advisor functions. Please view the video below for an overview of the site functionality.

**We recommend viewing this video in HD. Click on the settings gear in the video viewer to change the viewing quality.

If you need to see the video in full screen, click [here](#)
