

# Gmail Basics

## Managing Multiple Email Accounts

Having too many email accounts can be overwhelming. There are multiple ways to condense and organize your email accounts.

### Option 1: Multiple Sign-In - **BEST OPTION FOR SECURITY**

- You could use this option if you are using multiple Google Accounts.
- [How to use Multiple Sign-In](#)

### Option 2: Forwarding Emails to another account (not recommended)

- Use this option if you would like to forward one Gmail account to another email address.
- This option is NOT recommended if you need to send messages back from the forwarded account.
- [How to Forward Emails from another account](#)

### Option 3: Use Mail Fetcher

- Use this option to receive AND send emails from multiple accounts in Gmail.
- [Set up Mail Fetcher in Gmail](#)
- Sending Emails from different accounts within Gmail
  - **\*\*Note** - You will need to turn on "[Allow Less Secure Apps](#)" in your SMUMN Google Account Settings.
  - Go to Settings >Accounts and Forwarding
  - Click on "Add another email address you own"
  - Enter your SMUMN Email Address
  - Enter smtp.gmail.com
  - Enter your FULL email address
  - Enter your password
  - Leave the other settings as-is.

## Add another email address you own

### Confirm verification and add your email address

Congratulations, we successfully located your other server and verified your credentials. Just one more step!

An email with a confirmation code was sent to █████@smumn.edu. [Resend email](#)  
To add your email address, do one of the following:

Click on the link in the confirmation email

|  
OR  
|

Enter and verify the confirmation code

Verify

[Close window](#)

You will now be able to send from your SMUMN Account in your personal Gmail Account.

Option 4: Adding a Gmail account to another email program (Outlook) (not recommended)

- Use this option if you wish to receive your Gmail account messages in a program like Microsoft Outlook.
- To set up your Gmail in Outlook or other mail software on your computer you will need to first enable IMAP Access in your Gmail Settings. Then you will have to configure your email client (e.g. Outlook). There are Configuration instructions [here](#).
