Respondus LockDown Browser Installation and Requirements (students)

Saint Mary's University of Minnesota has obtained a campus-wide license for Respondus LockDown Browser. Respondus LockDown Browser™ is a customized browser that increases the security of test delivery in Canvas. When students use Respondus LockDown Browser to access an exam, they are unable to print, copy, go to another URL, or access other applications. Once an assessment is started, students are locked into it until it's submitted for grading.

Students can click on the following link to download and install LockDown Browser:

<http://www.respondus.com/lockdown/downloadc.php?id=945236087>

NOTE: Students will need administrator access on the computer they plan to install the browser on.

A “Student Quick Start Guide” for Respondus LockDown Browser is available
