

Read&Write and Snapverter

Students: How do I use Read&Write for PDF's from Snapverter?

PDFs, ePubs, and Kes files

The premium version of **Read&Write for Google Chrome™** also supports for PDF, ePub, and Kes files in Google Drive. To use, simply double click on the file to have it open in the Read&Write for Google Chrome™ viewer.

If the file does not open in the **Read&Write for Google Chrome™** viewer, it is either not set as the default app to manage your files, or it is not installed.

Click the **Settings** icon at the top right of the screen and select **Settings**. Then go to **Manage Apps** and scroll down to **Read&Write for Google Chrome™**. Select **Use as default**. Problem Solved!

Note: If you do not want **Read&Write for Google Chrome™** to be the default, you can still use it with any PDF, ePub, or Kes file. Simply right click on the filename and choose **Open With** and then select **Read&Write for Google Chrome™**.

To set as default, click the **systems**
